

FAST TRACK PROGRAM

S1-S2 MANAGEMENT PROGRAM

Program Description

The fast track program Management Science is created especially to answer the dynamics and needs for a Degree in Management science where students are ready and able to compete in the work place or in creating their own enterprises.

This program is designed and developed under the two program concentrations of Management, i.e. the undergraduate and the graduate program created in the academic year of 2007/2008.

The excellence of this program derives from a dedication to critical and comprehensive thinking, integration, and a dynamic working environment. The program utilizes case-based learning, which sharpens the hard skill and soft skill in leadership, communication and team work of the students.

Competence

Graduates of this program will have the following qualifications:

1. SE., MM: Bachelor Degree in Management, and Masters Degree in Management with a qualification on a Masters of Management (MM)
2. SE., M.Si: Bachelor Degree in Management, and Masters Degree in Management with a qualification of a Masters of Science (MSi).

The quality and competence of the graduates are based on analytical and problem solving skills, with decision making abilities that are appropriate for mid-level managers (practitioners), or as an academicians, researchers, and successors or seedlings of new entrepreneurs.

Curriculum

The curriculum is designed to meet a 4.5 years of study with a package system of students continuing on directly from an undergraduate to a graduate program. The curriculum integrates the two levels of the program, thus students can finish their Masters Degree with required length of study. The total credits needed are as follows:

MM= S1: 144 credits, S2-MM 42 credits, total 186 credits
 Msi= S1: 144 credits, S2-MSi 47 credits, total 191 credits

The curriculum offers the following concentrations

- Financial Management
- Marketing Management
- Operations Management
- Human Resource Management,
- Entrepreneurship

Each of these concentration offers a competence based on the needs of students, e.g. in manufacturing, services, human resources, corporate, etc

Spirit of Learning

Students enrolled in this program are those that really want to become MASTERS (have competence) in management science. Therefore, the program makes sure that the academic atmosphere is well-prepared at an early stage to ensure quality learning.
